

To the Hon Simon Bridges

Minister of Energy and Resources

21 March, 2013

Dear Mr Bridges,

Your speech to the NZWEA Conference on 21 March raises a number of issues which fall within your responsibilities as a minister, in particular relating to the Turitea wind farm. In your speech you made the following statements

“Perhaps near the top of the regulatory load have been the Resource Management Act and its consenting regime, which I know has caused headaches for some of you.”

The headache in respect of Turitea is that the consent is illegal, issued by Kenderdine 13 months after having her judicial warrant permanently removed. Your courtroom experience should leave you in no doubt as to the ramifications flowing from this indisputable fact. To clarify matters for you the attachment with this email sets out the sequence of events.

Additionally both the Turitea wind farm and the Puketoi wind farm are right on top of three of the country’s premier earthquake fault lines. This has been deliberately kept from the public.

You also state

“I see closer engagement between central and local government and business, iwi and communities as a priority.”

Palmerston North City ratepayers have been maliciously shafted by a once secret contract between Mighty River Power and PNCC where the city wears a \$3 million dollar penalty if it helps any of the hundreds of wind farm victims. Publicity about this contract has been deliberately suppressed.

Furthermore you state.

“As many of you probably know from first-hand experience, there’s also a lot that can be achieved from wind farm developers initiating meaningful engagement with local communities from early on in the process, and into the operational phase.”

This was never done for Turitea, not for Palmerston North or for the Tararua district.

www.turiteadocuments.wordpress.com has a full record of corruption and malfeasance. I recommend that you familiarise yourself with these documents, which are updated regularly, as this matter is not going away.

Yours sincerely

Paul Stichbury
