Dear Mr Stichbury

Thank you for your email of 24 April 2012.

You are concerned that there is a lack of available information about Mighty River Power’s (MRP) wind farms at Turitea and Puketoi, in particular the seismic risks of the land the farms are on or proposed for.

We suggest you contact MRP directly with your concerns. This is a matter for the entity itself, not its auditors. I would also note that we expect people who request an inquiry to first take their concern to the relevant public entity and seek its response. We will usually inquire into a matter only after there has been an attempt to raise the matter with the public entity concerned.

We receive many requests for inquiries each year, and have to choose carefully which issues warrant investigation by this office. Based on the information you have provided, this is not an issue we are likely to inquire into.

Thank you for taking the time to write to us.

Regards

Jude Hutton
